## Wheel Strap for Can-Am Spyder and more- Low Pro Sleeve

SKU#: [SS-A-2x8-Can-Am](#)

★★★★★ 5 (2 reviews)

**Our Price: \$34.95**

Wheel straps made for the Can-Am Spyder and other 3 wheel motorcycles with car style tires!

Comes with our Low Profile Sleeve and Horizontal E-track fittings standard, or other hooks on request. Main photo credit: B. Hamblin  
The low profile sleeve helps keeping the strap on the tire, to make it more secure, while still being much easier to use than the old style rubber tread grabs!

Sold as single strap. order two or three depending on need.

The low profile sleeve fits under the fender of the front tires, creating a secure grip, works for both E-track and other hooks.

For the rear tire, the low profile E-track spring connector and sleeve is thin enough to slide over the rear tire under the fender, see additional pictures. (Rear tire and wirehook won't work from what we believe)

Made with Diamond Weave webbing, available in Blue, Red, Goldenrod(Yellow) and Black.

### The Big Red Height Stick (15ft)-Version 2

SKU#: [AH-REDSTICK-V2](#)

★★★★★ 4.9 (40 reviews)

Our Price: **\$159.95**

**It's big, it's red (actually dark orange), and it's now(2014, time flies) improved even more!**

This is the latest V2 version of the AutoHauler Supply designed best selling height measuring stick.

The V2 comes with a new arm bracket, making it "double sided", for right hand or left hand use!

This 15 ft height pole with 4 ft horizontal swing arm features the strongest hardware and the thickest fiberglass tubes.

Best of all, it collapses down to 4' 5" long, making it the easiest height stick to store!

Our design uses an oversized wing screw, to make it the sturdier, simpler (fewer parts that can break) solution, and our faster to snap in place white nylon buttons.

A nice heavy duty nylon storage bag is also included!

**This is the original 4 stage REDSTICK invented by AutoHaulerSupply, with laser engraved numbers.**
